

# Energize Delaware

Your sustainable energy resource

## Efficiency Plus Business Program

**Helping Public Sector Projects Reduce  
Energy Costs with Incentives and Financing**

**Energize Delaware** offers its **Efficiency Plus** Business Program to local governments and other public sector entities in the State of Delaware. This program provides a combination of incentives, financing, and one-on-one technical support to help public sector entities purchase and install energy efficient equipment for renovation and new construction projects.

Through the **Efficiency Plus Business Program**, public sector participants can significantly reduce energy waste and associated costs, thereby making smarter energy choices and healthier communities.

### Program Highlights

- Equipment incentives up to \$20,000 per facility
- Loan amounts between \$10,000 and \$250,000
- Up to \$2,000 for energy audits\*
- Program is open through December 31, 2011, subject to available funds.

\*(required for all projects receiving financing)

## ...for Public Sector

### PROGRAM DETAILS:

**Prescriptive measures** include:

- Lighting
- Heating and Cooling Equipment,
- Commercial Kitchen Equipment,
- Water Heating Equipment, and
- Motors and Drives.

**Custom Incentives** are available for equipment not offered as a prescriptive measure or for new construction projects.

**Financing is available** for energy-saving improvements to non-residential facilities in Delaware. Public Sector projects can get **3.5% financing** – even for tax exempt lease purchasing! Loan payments will be returned to the program to make even more money available to fund energy improvement projects!

An energy audit is required for all loan applications. We will pay one-half of the cost of a qualified energy audit up to \$2,000. Visit [EnergizeDelaware.org](http://EnergizeDelaware.org) for audit requirements.

## Prescriptive and Custom Incentives

Incentive Program	Incentivized Measures	Description	Basis of Incentive
<b>Prescriptive</b> (existing buildings only)	Lighting	Fluorescent, HID, LED, etc. Incentive Available for Existing Buildings Only.	Per Fixture
	Motors & Drives	NEMA Premium Motors and VFD's	Per hp
	HVAC & Water Heating	Unitary Equipment, Chillers, Heat Pumps, Tankless Water Heaters, etc.	Flat Rate or \$/Mbh or ton
	ENERGY STAR Appliances & Commercial Kitchens	ENERGY STAR Appliances, Commercial ovens, Reach-In Coolers, Grills, Fryers, etc.	Per Unit
<b>Custom</b> (existing buildings and new construction)	Measures Not Included in Pre-Qualified Lists. Based on Results of Energy Analysis.	Measures Not Included in Pre-Qualified Lists – e.g., Building Envelope, New Technologies, Street & Traffic Lighting, Process Equipment, etc.  Incentive Available for Existing Buildings and New Construction.	\$0.12/kWh & \$12.00/mmBtu (or \$1.20/therm of Natural Gas)
<b>Financing</b>	Prescriptive, Custom and Renewable Energy Projects	Above Measures, as well as Solar Thermal, PV, and Ground Source Heat Pumps. Financing for Renewable Energy Projects must include efficiency measures that, combined with the renewable energy system, yield cost-effective savings. Energy Audit Required.	Project cost, not exceeding 10 years or payback period plus one year
<b>Energy Audit Cost-Share</b>	Energy Audit	Energy Audit	Co-fund \$2,000

### IMPORTANT NOTE ABOUT PROGRAM FUNDING

Program funding is provided by the American Recovery and Reinvestment Act (ARRA), which requires applicants to pay installers prevailing wages for projects receiving program financing. Applicants or their contractors are required to submit weekly certified payroll forms to the program office for the duration of the construction project.

Public sector applicants must also meet Buy American provisions of the Davis Bacon Act. See the program application or the Energize Delaware website, [www.energizedelaware.org](http://www.energizedelaware.org), for more information.
